WICCARE Pellets are easy to source locally, supporting communities and reducing dependency on imported fuels.

OUR ADVANTAGES & SERVICES!

- **Eco-Friendly:** Made from 100% sustainable biomass to protect the environment.
- **Sustainable Energy Solution:** Empowering homes and communities with renewable energy
- **Cost-Effective:** Save money while using less fuel.
- **Low Ash Content:** Minimizes cleaning and maintenance.
- **Carbon-Reduction:** Switching to WICCARE Pellets helps cut down carbon emissions compared to traditional fuels like charcoal or kerosene.

Did You Know?

- ✓ **Switching to pellets reduces carbon emissions** by up to 80% compared to traditional fuels!
- ✓ **Pellets are odorless and chemical-free** – No harmful additives, just pure, natural fuel!
- ✓ **One ton of pellets prevents about 1.5 tons of CO₂ emissions** – That's equivalent to planting over 100 trees!
- ✓ **Using pellets can reduce indoor air pollution by up to 95%** – Say goodbye to smoky kitchens and respiratory problems!
- ✓ **Switching to pellets reduces deforestation by up to 50%** – Protecting forests and conserving biodiversity.

What you get:

- ▶ **Low Ash Content:** Keeps your cookstove clean with minimal residue.
- ▶ **Consistent Quality:** Every pellet is manufactured to ensure consistent size, moisture content, and performance.
- ▶ **Reduces harmful indoor air pollution,** protecting you and your family from smoke-related health risks.

Who Can Use WICCARE Pellets?

- ✓ **Households** – Clean and affordable cooking fuel for daily use
- ✓ **Restaurants & Eateries** – Cost-effective fuel for commercial cooking
- ✓ **Schools & Institutions** – Reliable bulk energy source for large-scale cooking
- ✓ **Industries** – Can be used in boilers and heating systems
