

Job Advertisement: Electrician at Wicare Africa Limited.

Wicare Africa Limited (Women in Cold Chain, Agriculture and Renewable Energy) is a pioneering social enterprise focused on transforming waste into energy while empowering female-led entrepreneurship. We are dedicated to innovative solutions in Cold chain logistics, Agriculture, waste management and energy production and we are currently seeking an **Experienced Electrician** to join our team.

About the Role.

You will be responsible for installing and repairing complex electrical control, wiring, and lighting systems working from a technical blueprint. To perform in this role, you need an electrician Diploma or degree from a technical college and experience in the field working on simple and complex electrical systems. As an Electrician, you will be responsible for the setup and maintenance of electrical infrastructure, including the installation of electrical wiring, troubleshooting malfunctions, and performing repairs on various appliances. Your commitment to safety and adherence to precautionary measures are paramount in this role.

Key Responsibilities.

- Comply with the Company's HSE Policy, Standard Operating Procedures, and Safety Work Instructions.
- Installing, maintaining, and repairing electrical control, wiring, and lighting systems.
- Reading technical diagrams and blueprints.
- Performing general electrical maintenance.
- Inspecting transformers, circuit breakers, and other electrical components.
- Troubleshooting electrical issues using appropriate testing devices.
- Repairing and replacing equipment, electrical wiring, and fixtures.
- Following National Electrical Code state and local building regulations.
- Performing circuit breaker corrective maintenance.
- Maintaining good knowledge of heating and air conditioning systems as well as various testing equipment.
- Execute electrical jobs under the direction of your supervisor and provide feedback on tasks.
- Facilitate documentation and record-keeping of tasks in collaboration with your supervisor.
- Conduct daily first-level inspections of your section and report findings.
- Execute weekly preventive maintenance (PM) tasks while ensuring quality and safety.
- Participate in plant improvement projects and propose innovative ideas.
- Maintain cleanliness in electrical rooms and substations as directed.
- Collaborate with employees from other departments to support task execution.
- Join the on-call team as needed.

Qualifications, Experience & Skills

- **Diploma in Electrical Power Systems Engineering.**
- 2 years of experience in the heavy machinery industry; **3-5 years** preferred.
- Knowledge of **industrial instrumentation** and automation is a plus.
- Strong analytical and problem-solving skills.
- Excellent hand-eye coordination and physical dexterity.
- Solid understanding of health and safety regulations.
- Ability to remain calm under pressure.
- Excellent communication and interpersonal skills.
- Passion for electrical engineering and a willingness to learn.
- Computer literate; a valid driving license is an added advantage.

How to Apply

If you are ready to take on this challenge and meet the qualifications, please send your CV to hr@wiccare-eastafrica.co.ke and copy fidoh@wiccare-eastafrica.co.ke. Make sure to quote the job title "Electrician" in the email subject line and indicate your desired remuneration in your Cover letter.

Deadline for applications: November 22, 2024.

Starting Date. January

Join Wiccare Africa Limited and contribute to creating a safer and more efficient electrical environment while empowering women and driving innovation in Cold chain, Agriculture and Renewable energy!
